Diamond Jubilee Inspires Song

Canada's Diamond Jubilee has been the inspiration that led to the writing of a new Canadian song "At The Canada Jubilee" which has recently been published to commemorate the sixtieth year of confederation.

Its composer, Gordon V. Thompson, has already established the reputation of being one of Canada's leading song writers. His popular war songs composed and published during the stirring days of 1914-18 are well-known. There are few who do not know by heart the air of "When Jack Comes Back", "Khaki" or "When Your Boy Comes Back to You", three patriotic songs in particular composed by Mr. Thompson during the war.

Mr. Thompson composed this new song recently while staying at the Chateau Frontenac at Quebec. Here at the very birthplace of Canadian history Mr. Thompson felt the urge to write something that would express the joy of Canadians at the coming great event. Having produced "At the Canada Jubilee" Mr. Thompson felt that another song, expressing the optimistic sentiments of Canadians, would be exceedingly appropriate. "Land of Glad To-Morrow" was the result of this inspiration which the composer feels expresses something of the optimism for the future throughout Canada at the present time.

LOCAL NEWS.

Tomorrow is the sixty-second anniversary of the natal day of His Majesty King George the Fifth.

C. N. Agent Murphy spent the week end at his home in Elson.

Mr W J Elliot, principal of the School of Agriculture, Vermilion, was a visitor in Stony on Friday.

Stony Plain Town Council meets tonight.

Very little damage was done locally while the electric storm was in progress Friday afternoon, except when a flash struck the Brooks elevator, extinguishing the lights and putting the phone out of commission.

Mine Host Walker, of the Wabamun Hotel, started from Edmonton Friday with his new Hupmobile eight, got as far as Stony with it, left it in Stony, and finished his trip via Canadian National Ry.

The scheduled trip to Dufield on Sunday of the ball players had to be abandoned, as the condition of the roads did not permit it.

Farmers have practically completed drilling in their wheat and oats. The area sown this year is about the same as in 1926. The heavy rains the latter part of last week delayed for a time the finishing up of the grain, and also the planting of potatoes. Owing to the unsatisfactory market for the latter product this spring, it is probable there will be a smaller area sown to spuds than last season.

The frame house on the farm of Mr Henry Giebelhaus, three miles north of Stony, caught fire on the morning of May 24th, and burned to the ground with its contents. The house contained some very valuable furniture. This was burned, along with the other contents. All efforts to remove some of the articles from the burning building proved unavailing, owing to the rapid headway the flames made with the strong wind blowing at the time. This is the second heavy loss by fire within a twelvemonth which Mr Giebelhaus has suffered. His barn, with feed, horses and harness, having burned down one evening last July. A mail insurance was carried thru Mr Geo F Harris, the insurance man.

M M Mecklenburg, the well known optical specialist, will be at the Royal Hotel, Stony Plain, on Thursday, June 30th. See him and see well.

Secretary Pidgeon, of Inga M.D., will be in Stony Plain on Saturday, June 18, to receive taxes for the Municipal District.

United and Intelligent Action Will Be Needed To Stem Westward Migration of Rat

The press reports recently that a number of rats had been killed by farmers in Saskatchewan, sharply drawing attention to two very interesting facts from an agricultural point of view, namely, that the Canadian west is one of the few agricultural areas in the world that is not overrun by these pests and secondly, that no time should be lost for every farmer in the prairie provinces to take up this challenge by immediate and no uncertain precautionary action. The truth may well be faced, says the Natural Resources "Intelligence Service" of the Department of the Interior, namely, that the brown rat, native of China and scourge of all Europe, is seeking to add one more province of Canada to his habitat. Ever and anon he continues his westward march and it will require the most united and intelligent warfare to stem his migration.

There are two aspects to the threatened rat plague. First, he is a dread carrier of disease, particularly of the bubonic plague or "Black Death" and history tells us that in the fourteenth century some twenty-five million people died in Europe of this dread disease. Nor will it be forgotten that in 1907 there was an epidemic of the plague in India and 2,000,000 deaths are stated to have occurred. Second, there is the economic aspect. What does it cost to feed a rat? Enquiries were carried out in Europe in 1907 and the average annual loss caused by each rat in Great Britain was placed at \$1.50, in France \$1, and in Denmark, \$1.20. Like everything else there is little doubt that the high cost of rats has since gone up.

The genus *Rattus* includes some 150 species of rats and mice but it is the common brown rat which has staged one of the greatest of all natural migrations, animal or human. His native country appears to have been in Western China, but he has been fought in every corner of the globe, but still he moves onward conquering new territory. And it is little wonder that he has won in countless conflicts when one considered his prolific habits of breeding. Brown rats begin to breed at three or four months of age, they have from six to ten litters per year averaging ten each. A pair of rats breeding uninterruptedly for three years without any deaths to their progeny would result in that time in a colony of over 550 million rats.

Mice are bad enough, but the brown rat is infinitely worse and one can conjecture the toll he will take if he becomes firmly established in the greatest granary of the British Empire. A few years ago it was thought that the long hard winters of western Canada would prove a deterrent to colonization of that country by rats but they gradually migrated from the east and spread over southern Manitoba. Now they have reached the Qu'Appelle district of Saskatchewan, and they are known to have burrowed under a straw stack and found sufficient shelter for the winter.

The brown rat is omnivorous in its diet and eats anything edible, vegetable or animal, even leather and fabrics. It attacks poultry, destroying eggs and chickens; fish and fruit are equally acceptable with all kinds of meat, groceries and vegetables; it will eat its own weaker brothers and sisters if pressed for food and has not infrequently attacked helpless human beings. It visits sewers and other filthy places carrying and scattering the germs of disease.

The gopher is next on without this latest intruder which in its omnivorous habits and disease-carrying propensities ranks as far more dangerous. The whole of Canada should rise up and wipe out these pests and evidence is now lacking that the rat is on its way in some municipalities, where bounties on rat tails have been announced. Individuals should not wait for a bounty, however, but should declare war on the first invasion of their territory and with widespread recognition of the danger and concerted action it ought to be possible for a young and vigorous country in which settlement

is not too dense to win out, even though older and more thickly populated countries, hampered by ancient sanitary systems and less modern living conditions have failed.

Regaining Place In World Wheat Market

Great Increase Shown in Russia's Production and Export

Within five or ten years Russia will be again a major factor in the world wheat market. If the rate of increase in production and export from the U.S.S.R. is maintained. Before the war, Russia was the second largest exporter of wheat. During the past dozen years, of course, comparatively little has been coming out of the country, but recovery has proceeded so far that this spring exports have run as high as 750,000 bushels a week. As Russia has an even larger area of undeveloped wheat land than Canada, production can and will be still further increased; and as labor and land are cheap, the grain can be cheaply produced. "We will have to find some method of reducing production costs," remarks Nor'West Farmer (Winnipeg).

A New Suspender Skirt and Tailored Blouse

Of unusual smartness is the suspender skirt shown here. There is an inverted plait at each side seam to provide for the necessary fulness and the back may be cut high or low. The straps are attached to the back at the shoulders and the lower ends are set under the top of the skirt to form pockets. No. 1598 is in sizes 34, 40 and 44 inches bust. Any size requires 2 1/2 yards 36 or 40-inch material. Price 20 cents the pattern.

The blouse has an applied yoke at the back, a centre front opening, long sleeves gathered to wristbands, a shaped collar and patch-pocket. The blouse is No. 1599 and is for Ladies and Misses and is in sizes 34, 38, 40, 42 and 44 inches bust. Size 38 requires 2 1/2 yards 35-inch or 1 1/2 yards 54-inch material. Price 20 cents the pattern.

The designs illustrated in our new Fashion Book are advanced styles for the home dressmaker, and the woman or girl who desires to wear garments dependable for taste, simplicity and economy will find her desires fulfilled in our patterns. Price of the book 10 cents the copy.

Legume Bacteria

Why Legume Inoculation Sometimes Fails to Benefit Crops

Under ordinary field conditions, the presence of the proper strain of legume bacteria in the soil is necessary for the successful growing of alfalfa or other legumes. It is therefore always essential to inoculate when there is any reason to suspect a scarcity in the soil of the bacteria associated with the particular legume being grown. There are times, however, when inoculation fails to benefit a crop. Such failure may be assigned to a number of different causes which are enumerated in a new Experimental Farms pamphlet which may be obtained from the Publications Branch, Department of Agriculture, Ottawa.

In a large number of cases the reason for lack of benefit from inoculation is that the soil has already been inoculated, and the additional bacteria consequently are superfluous. In other instances, where the crop growth is as poor with treated as with untreated seed, adverse climatic and soil conditions may be responsible. The proper treatment of the soil is very important and is fully described in the pamphlet. Good drainage and liming are frequently necessary before a good legume stand can be established as they favor the crop, not only directly, but also indirectly by fostering the nitrogen-gathering bacteria. Inferior seed is a very frequent cause of failure. The use of hardy Canadian grown seed is essential. In short it should always be remembered that legume bacteria are living things and to do their work properly must be in a suitable environment.

Was Somewhat Delayed

A postcard from a friend of boyhood days recently was received by Charles Swift, Brockton, Mass. The sender was inquiring if Swift knew the whereabouts of other schoolboy chums. Surprised, Swift glanced at the postmark, discovered that the card had been mailed March 21, 1882. It had been in the mails 44 years.

Every man hugs the delusion that sooner or later he will invent something that will make him rich.

Canadian Maples for Canberra

Hon. Ernest Lapointe, Canadian Minister of Justice, now away in Australia, is leaving a lasting result of his visit and of Canada when on July 1st, he will plant at the new Australian capital, Canberra, a maple tree and six maple saplings in commemoration of the Diamond Jubilee of Canadian Confederation.

The maple tree and saplings have already sailed on the crack Canadian Australian steamship, R.M.S. Niagara from Vancouver and these gifts of the Canadian people to the Australians are entirely products of British Columbia, having been selected by J. Hoyle, librarian of the province of Victoria, and Alderman Frank Wood

Current Activities Indicate That Manitoba Will Soon Become Steady Producer of Gold

Cattle Imports From Scotland Permitted

Department of Agriculture Raises Embargo Under Certain Conditions

The situation in regard to foot and mouth disease in England has so greatly improved that the British Ministry has found it possible to remove restrictions on the movements of cattle in that country. In view of this, and as Scotland has been absolutely free from the disease for six months, the Department of Agriculture at Ottawa now considers that it will be justified in permitting the importation of cattle, sheep, other ruminants and swine from Scotland under certain conditions.

An order has just been signed, says a statement issued by the department, permitting such importations from Scotland, provided that such animals must be embarked from a Scottish port and, in addition to the usual health certificates, must be accompanied by an affidavit of the shipper that the animals so embarked have been in Scotland for a period of sixty days immediately preceding the date of embarkation. The animals must also be shipped on a vessel proceeding direct from Scotland to Canada, without touching at an English port, and they must be accompanied by an affidavit from the shipper to the effect that the feed taken on board for feeding these animals en route has been grown and stored in Scotland.

Each importation will be made under permit, issued by the veterinary director-general.

Assistant — "I can't understand what made the lady so angry."

Deacon — "Never refer to a lady's big toe, son. Always say 'the largest of your small toes.'"

If there are no distant relations at a man's funeral it's a safe bet he'll die poor.

A. H. A. Robinson, of the department of mines at Ottawa, writes that the next few months mark the beginning of a new era in the history of mining in Manitoba. He says that for some years production records have credited the province of Manitoba with a nominal output of gold, practically all of it from prospect workings, and under the stimulus of high prices during the war a considerable amount of rich copper ore was mined and shipped; but the province has never attained the status of a metal producer in the ordinary acceptance of that term. Current activities in two widely separated fields, however, now indicate that Manitoba is soon to become a steady producer of gold and, later, possibly an important source of the base metals, copper and zinc also.

In the northeastern part of the province, east of Lake Winnipeg, are extensive gold-bearing quartz deposits in course of development with very considerable reserves of ore of profitable grade, that is to say, of material that will average about \$12 per ton and having a total estimated gross value of at least \$1,000,000. A 150-ton mill is to be built, the material for this purpose having been taken in over the snow roads last winter. Construction will follow this summer and the mill should be in operation by the end of the year. Hydro-electric power will be used for mining and milling, this being supplied by the Manitoba Power Company from their generating station at Great Falls on the Winnipeg river, about 50 miles away. A high tension transmission line is now being built to the new gold field and it is expected that power will be delivered this spring. The availability of cheap hydro-electric power will be a great boon to the province, as it stimulates development on many properties throughout the district which has heretofore been handicapped by its isolated situation.

In northwestern Manitoba, a 20-ton experimental plant has been built north of The Pas, for the purpose of trying out a method of treatment adapted to the low-grade copper-zinc ores found there. Some 16,000,000 tons of ore carrying an average of 1.53 per cent. copper, 3.49 per cent. zinc, 0.67 1/2 oz. per ton gold, and 1.04 oz. per ton silver have been blocked out by diamond drilling, and as soon as a commercially feasible method of treatment has been developed in the pilot plant, the exploitation of this vast deposit will be undertaken on a large scale. It is estimated that the initial expenditure necessary to put the area on a commercially productive footing, including the building of some 85 miles of railway, will be in the neighborhood of \$12,000,000. A number of other deposits very similar in composition have been discovered throughout the district. The owners are only awaiting the outcome of the present experiments to undertake intensive development work on them also.

Federal Highway Grants

Last Fiscal Year in Which Federal Assistance Will Be Given

An amount in the neighborhood of \$50,000 payable to the Government of Saskatchewan, has been authorized by order-in-council in connection with Dominion Government contributions to highway improvements.

This is the last fiscal year in which the extended program of federal assistance will continue. The grants will expire at the end of next March and having been extended for five years more than was originally contemplated, the system is not likely to be continued.

It is improbable that in view of this fact, the position of commissioner of highways, vacated by the recent death of Archibald W. Campbell will be filled.

For ten years after the construction in 1835, locomotives were not allowed to enter the Boston railway station in London for fear of frightening horses. The coaches were dragged into the station by a stationary engine.

The Twentieth Edition

McKinn's Directory of Canadian Publications for 1927

The 1927 edition of McKinn's Directory of Canadian Publications has just been issued and this publication no doubt, will be welcomed by national advertisers throughout Canada and the United States.

It is the twentieth edition—the first issue having appeared in 1907 and it has been the endeavor of the publishers at all times to make each number more complete and more dependable than previous editions.

In fact, this directory is accepted generally as a reliable source of information on Canadian Publications and is regularly consulted for Canadian geographical and statistical particulars twelve months in the year.

The average man is more polite to people he never expects to meet again than to those whose friendship is really worth cultivating.

Heart Palpitation Dizzy, Sinking Spells

Mrs. M. A. Gagnon, Donaville, Alta., writes: "Some time ago I was very nervous, could not sleep at night, often had dizzy, sinking spells and palpitation of the heart, and was so run down I could not do my housework, but just leave everything and sit down."

I spent a lot of money using medicine from the doctor, but it did not do me any good.

At last a friend told me to use and after using a bottle of heart I was not the same woman. I began to feel so much better, and after a few more boxes I was in perfect health. I always recommend them to all heart trouble."

Price 50c. a box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Extend Period Of Aviation Agreement

U.S. and Canadian 'Alirmen Cross Border on Defined Conditions

The existing agreement between the United States and Canadian Governments by which aviators of either country may fly into the territory of the other under certain defined conditions has been extended until October 31. The extension of the agreement was accomplished by an exchange of notes between the State Department and the Canadian Legation.

The agreement has been in effect since 1922. It provides that when an American aviator desires to fly into Canada he shall give notice in advance to the secretary of the Canadian Air Board at Ottawa, giving the date of the proposed flight, the owner's name and address, the purpose for which it is to be undertaken. The procedure is the same for Canadian flyers desiring to visit the United States by air.

Made Remarkable Test

Sound of Human Heart Beat Amplified Ten Trillion Times

Washington—The sound of a human heart beat was amplified ten trillion times before the American Medical association, meeting in convention here. This was the greatest sound amplification ever achieved in history.

In the Washington auditorium building, hundreds listened spellbound while sound, like a giant treading an empty hall, filled the entire structure. Out in the street, pedestrians paused, their cars alert to what sounded like distant cannon fire.

The main purpose of the development of the instrument, an electric stethoscope, was the treatment of heart diseases.

A POPULAR MANAGER

T. E. Chester, Manager, Hotel Saskatchewan, Regina. Mr. Chester entered the service of the Canadian Pacific at the Empress Hotel, Victoria. He had been assistant manager of the Royal Alexandra Hotel, Winnipeg, before coming to Regina.

July, 1919—British airship R-3, flew from Scotland to New York and from New York to Fuhann, England.

August, 1924—The United States round the world fliers crossed from Scotland to Iceland to Greenland. October 12, 15, 1924—The Zepplin ZR-3, now the Los Angeles, was flown from Friedrichshafen, Germany, to Lakehurst, N.J.

Recalls Romance of Boer War

Woman Despatch Rider Who Married British Colleague is Dead

By the death of Mrs. Catherine Vaughan, widow of Col. A. Owen Vaughan, of Dinan Powis, near Cardiff, Wales, a remarkable romance of the Boer War is recalled. Mrs. Vaughan who was a relative of President Kruger, was a skilled horse woman, and acted as a dispatch rider for the Boers. Col. Vaughan, then leading a British force as a captain, was attacking a Boer post when the young Afrikaner woman dashed out on her horse to bring aid to the beleaguered. As she refused to stop, Capt. Vaughan shot her horse and captured the dispatch rider, whom, to his surprise, he found to be a woman. The acquaintance thus made led her to marriage. Col. Vaughan, who was better known as "Owen Rossomil," a noted Welsh historian and novelist, died eight years ago.

Not a "Vanishing Race"

Indian Population in Western Canada is About 35,000

From Ottawa comes the statement that the Indians are increasing in population. They are no longer a "vanishing race." In western Canada the total population today is about 35,000.

It is welcome news. We should wish the Indians well. These picturesque people form the genuinely native race of North America. Descendants of ancient nomads who most probably entered the Western Hemisphere from the Orient across the strip of land that has now passed to the Bering Straits, the famous redskins deserve the kindly fate which civilization has reserved for them.

Lightning, instead of being flat and jagged, as it appears, really is spiral and wanders around and around in space before it exhausts itself or strikes something.

SUNDAY SCHOOL LESSON

JUNE 5

PETER PREACHING TO GENTILES

Golden Text: "For there is no distinction between Jew and Greek: for the same Lord is Lord of all, and is rich unto all that call upon Him."—Romans 10:12.

Lesson: Acts, Chapters 10 and 11. Devotional Reading: Psalm 67:1-7.

Explanations and Comments

1. How a Gentile Was Prepared for Discipleship, verses 1-8.—Cornelius was a Roman centurion in command at Caesarea. One night he had a vision in which an angel said to him, "Cornelius, thy prayers and thine alms have gone up for a memorial before God."

Then the angel bade Cornelius to send for Joppa, for Peter, who was staying with Simon the tanner by the seaside. Cornelius was a Gentile, and Jews would not enter the homes of Gentiles. Yet Cornelius obeyed the command. He called two of his household servants and one of his soldiers, explained to them his vision, and sent them to Joppa.

"Great thoughts are in the air for those who are open-minded; noble impulses crowd the highways for those who are ready to receive and act upon them."—Hamilton Wright Noble.

No Asthma Remedy Like It. Dr. J. D. Kellogg's Asthma Remedy is distinctly different from other so-called remedies. Were this not so it would not have continued its great work of relief until known ocean to ocean for its wonderful value. Kellogg's the foremost and best of all asthma remedies, stands upon a reputation founded in the hearts of thousands who have known its benefit.

Many a man who thinks that he thinks has a wife who does all his thinking.

RUSSIAN TRADE AGREEMENT IS TO BE ABROGATED

Ottawa.—The Government has decided to terminate immediately the trade agreement with Russia, it was announced following a lengthy meeting of the cabinet council.

Premier King, in making the announcement, declared this action had been decided upon after a full discussion of the situation created through the decision of the Russian Government to sever its relations with Soviet Russia. Evidence in the hands of the Canadian Government made it clear, the Premier said, that certain sections of the agreement between Canada and Russia had been violated by the Russian Government. Premier King pointed out that the agreement was subject to termination upon a certain condition being fulfilled. He specifically quoted a provision agreed to refrain "from hostile action or undertakings against the other and from conducting outside of its own borders any official propaganda directed or indirect against the interests of the British Empire or the Union of Soviet Republics respectively."

Premier Baldwin's statement in the British House of Commons, and evidence before Canadian Government, had made it clear, the Premier said, that this agreement had been violated.

Premier King stated emphatically that termination of trade agreements would not mean discontinuation of trade between Canada and Russia. It would mean that certain quasi-diplomatic privileges enjoyed by the Russian trade commission would be terminated, but every effort would be continued to further trade between Canada and Russia in the same manner in which Canadian trade relations with other nations were conducted.

The Premier said evidence in the hands of the Canadian Government does not disclose any espionage or subversive propaganda so far as the Montreal office of the Russian trade commission is concerned.

Prize for Pacific Flight

Hawaiian Offers \$25,000 to First aviator Making Non-stop Trip

Honolulu.—The Star Bulletin, in a copyrighted article announces that James D. Dole, president of the Hawaiian Pineapple Company, has offered a purse of \$25,000 to the first aviator and \$10,000 to the second pilot to make non-stop flights from the Pacific Coast to Hawaii during the 12 months starting August 15.

New York.—The Bellanca monoplane "Columbia," in which Clarence Chamberlin had been the first to fly to France, will be entered in the \$25,000 contest announced by James D. Dole in Honolulu. The "Fokker" monoplane "America," which also was "beaten to the post" in the Paris flight by Charles Lindbergh, may and may not try the Hawaii flight, it was said.

Future of the Dominion

Ottawa.—"Our grandchildren may even live to see the seat of Empire transferred to our shores," declared Dr. J. H. Coyne, of St. Thomas, Ont., president of the Royal Society of Canada, in discussing the Dominion's future at the society's forty-sixth annual meeting. "The future of our Dominion," he continued, "is on the whole bright with promise."

Check Fever Epidemic

Montreal.—Preventive measures taken by provincial and municipal officials to check the spread of the present typhoid epidemic are working successfully, health authorities claim. It was predicted that "within one month the epidemic would be stamped out."

Choir of 11,000 Voices

Ottawa.—A choir of 11,000 voices including 1,000 voices selected from 70 churches, irrespective of race or creed, and 10,000 school children, will sing a program of patriotic songs and anthems in connection with the Jubilee celebration here. C. J. L. Rickwood, Ottawa, will direct the choir.

W. N. U. 1923

Experiment Was a Failure

New Zealand Lost Heavily in Attempt to Control Price of Butter. Vancouver.—New Zealand's futile attempt to fix the price of butter on the London market and the boycott by London buyers of more than a million boxes of weight, \$6,000,000 worth, that were allowed to accumulate in cold storage in Britain in April, have been factors in the shortage of butter supplies in Canada during the past five months.

The action of British merchants in buying butter from Argentina, Australia and Canada, while leaving New Zealand's price-controlled stocks severely alone, withdrew from Canada heavy supplies that normally would have been available for home requirements, it is said here.

As a result, Canadian butter dealers have been scrambling for immediate requirement for months, picking up stray stocks here, there and everywhere, some being brought back from London, some from Quebec, some imported from the United States, and a total of about seven million pounds shipped direct from New Zealand.

The lateness of the season in Canada has also been a factor in the shortage here, spring production being about a month later than usual.

New York Financier Dies

Payne Whitney, One of America's Richest Men, Victim of Heart Attack

Manhasset, N.Y.—Payne Whitney, financier, philanthropist, sportsman and one of the richest men in the country, died of a heart attack while playing tennis at his country estate, Greentree.

Mr. Whitney was 52 years old. He was the brother of Harry Payne Whitney, son of the late William C. Whitney, secretary of Navy under Cleveland. Estimates of the Whitney estate ranged in Wall Street from \$100,000,000 to \$400,000,000. In 1924 he paid an income tax of more than \$2,000,000, only John D. Rockefeller, Jr., and Henry Ford, paying more.

Great Interest Being Taken in Eclipse

English Railways Will Run Special Trains to Vantage Points

London.—The eclipse of the sun which will be observed by a portion of England, June 15, is arousing such interest that railway and motor bus companies are preparing to carry thousands of excursionists to the favored belt across England where the view will be best. More than 100 special trains and automobiles will be run to carry their passengers to the biggest open air party ever known in England. Most of the participants expect to arrive at vantage points around midnight.

Postmasters' Convention

Regina, Sask.—T. P. Murphy, Ottawa, superintendent of the equipment and supply branch of the federal post office department, will represent the postmaster-general at the forthcoming convention of the Saskatchewan Postmasters' association to be held in Regina, Tuesday, Wednesday and Thursday, June 7, 8 and 9. About 150 delegates are expected to be in attendance.

Cable Bill Passed

London.—The House of Lords has given third reading to the Pacific Cable Bill, which has now passed both Houses. The bill authorizes reorganization of the Pacific Cable Board in accordance with the settlement of Canada's dispute with that body reached at the last Imperial conference.

Arms Parley in June

Washington.—The three-power naval limitations conference called by President Coolidge will convene in Geneva on the afternoon of June 20. Secretary of State Kellogg informed the British and Japanese ambassadors after informal conversations had shown the date acceptable to all.

Radio Typewriter

Rome.—A typewriter capable of receiving radio-phonetic communications at great distances is to be tested here. Some New York shortly the machine functions automatically typing on ordinary paper, guided by radio waves.

WOULD DEVELOP CANADIAN TRADE WITH BRITAIN

London.—"I am here to visit Canadian trade commissioners in Britain and on the continent and to acquaint myself more fully with the possibilities the markets here offer for Canadian products," John James Malcolm, Canadian minister of trade and commerce, told newspapermen in an interview. He added that he was more particularly desirous of increasing inter-empire trade, of which he had been a constant advocate.

The minister mentioned the sum of \$100,000,000 by the Canadian government for advertising Canadian goods in Britain. To secure the best means of applying the money was an important object of his visit, he said. Mr. Malcolm acknowledged that the figures of Canadian trade with Britain lately had shown a decrease through the lessened ability of Britain to purchase Canadian products, although Canadian production from Britain showed a slight increase. He believed adequate publicity would soon help to correct the balance. There was always, he said, some unreliability about statistics and they did not invariably show the exact position of trade between two countries like Canada and Britain.

Trade With U.S.

Canada Regarded by U.S. as Best Outside Field for Investment

Detroit, Mich.—Business of the United States made an eloquent case of admiration for its neighbor to the north when the National Foreign Trade Convention turned over, an entire trade treaty to Canada and Canadian Speakers with only one exception were Canadians. They spoke of their great commerce in hard wheat and other products of their own export trade and of the growing interest of Americans in Canada as attested by their investment of \$3,000,000,000 within the Dominion. Sixty per cent. of all foreign investments in Canada came from the United States, the convention was told by Case H. Howard of the Canadian Bank of Commerce, New York.

"We take it as a compliment," he added, "that Canada is regarded in the United States as the best outside field of investment, and we interpret it as an indication of the estimate placed by the United States upon the character and ability of Canadians."

Agree on Claims

Washington.—The British and United States governments have agreed on a settlement of mutual claims and those of individuals against both governments for seizure of wartime shipping, but terms of the settlement are being withheld pending an arrangement for publication of final notes ratifying the pact. The claims grew out of detention and search during the war on shipping of both countries suspected of carrying war supplies to the enemy.

Ox-Tongue Falls, Lake of Bays

Throughout the Lake of Bays region of the Highlands of Ontario, which the members of the Canadian Weekly Newspapers Association will visit when holding their 1927 convention at Elgin Falls, there are many delightful waterfalls of which Ox-Tongue Falls shown above is one. Canadian National Railway photograph.

Would Send Boys to Canada

sale of Man Has Scheme for Community Settlement in Winnipeg. Montreal.—Canada is the country to which the Isle of Man is looking for the settlement of her youth, said J. B. Crookall, J.P. mayor of Douglas and member of the House of Keys, who reached Montreal on the White Star liner Doric. Every year the Isle of Man has about 400 boys leaving school at the age of 14. A proposal is made to send the leaving age to 15, following which the island authorities would give them a course of training for one year to fit them for emigration. Mayor Crookall hoped that Manitoba in Canada would interest themselves in this project.

The mayor outlined a scheme he had for the community settlement of Manxmen in Canada. He proposed to send out 100 families if the Dominion Government would set aside a tract of land sufficient to provide for them, making the terms as easy as possible. About \$8 per year, of those families would be agricultural.

Building New Telegraph Line

Work Will Commence at Once in Northern Saskatchewan District

North Battleford.—Construction is to proceed on a telegraph line between Loon Lake and Meadow Lake. The distance is 55 to 60 miles. The line will serve to link up the Meadow Lake country with the splendid farming sections farther west. It will be a means of communication for these northern people with the outside world, something they have not at present. On representation being made to the department by the Federal member an appropriation of \$8,000 was put through Parliament for the building of the line. The government is ready to act at once on the building of the line. The office to be established on the line will be set up just as soon as possible.

The Favored Country

British Labor Leader Says Emigrants Opportunities in Canada Best in World

London.—Canada contains greater possibilities for any foreign country in the world, provided the right kind of immigration is regulated so as not to displace the existing workers, in the opinion of G. D. Cranby, general secretary of the National Union of Railwaymen, who has just returned from a tour of the Dominion. "Mr. Cranby was struck by the 'revolt of Canadian organized labor against the domination of American unions' and the similar movement among professional associations. Canada's welfare also came in for a glowing reference from Mr. Cranby."

Will Compete in Prize Swim

Montreal.—Ernest Warkentin, Germany's foremost swimmer and conqueror of the English Channel, has applied in Montreal. He will participate in the Lake George swim for a prize of \$10,000 and later go to Toronto, where he will take part in the \$50,000 race to be held in Lake Ontario off the Queen City during the summer.

WILL OBSERVE LUNAR ECLIPSE IN FAR NORTH

New York, N.Y.—The outposts of civilization in the Canadian Arctic wilderness have been asked by radio to aid the Harvard University Observatory in observing on June 15 the first lunar eclipse since 1892. Observers in the northern region in the region of Chesterfield Inlet, Bear Lake, Rampart House and Good Hope had a message of instruction broadcast to them recently.

Directions for the observation of this rare lunar phenomenon, addressed to members of the Royal Canadian Mounted Police, representatives of the Hudson's Bay Company and Reilly, Peers, Trading Company and the Oblate missionary fathers among the Eskimos, was broadcast in part as follows:

"A total eclipse of the moon will occur on June 15, 1927, the centre of the eclipse being at 2:24 a.m. Eastern Standard Time. The sun and moon will both be nearly on the horizon on the day and hour mentioned, at the points to which this message is addressed."

"It is of great scientific interest to know as exactly as possible what the weather conditions are at that particular time at points near this line. Baker Lake is the most important point of all and the astronomers would appreciate any special efforts to procure observations there."

According to Dr. William J. Fisher, of Harvard, it should be possible this year to determine the density of the earth's shadow very near to the edge of the earth.

Investigating Plan to Use Sulphite Wastage

Scientists See Possibility of Making Substitute for Gasoline

Ottawa.—Canadian scientists are investigating the possibility of the manufacture of a substitute for gasoline out of the wastage in the pulp and paper mills. It was revealed at a meeting of the association of chemists and engineers of the National Research Council of Canada here. The sulphite mills, it was declared, in the manufacture of pulp for newsprint are now losing the value of the waste, some quantities of which are put to other uses of alcohol. Properly treated wastes have been found to operate efficiently on a mixture of alcohol and benzene.

The council also recommended today that the national research council investigate steps to secure detailed information on the measurement of the ultra-violet rays given off by the sun. If it can be shown that great benefits to be obtained from these rays then it is recommended that special glass should be universally used in Canadian homes and other buildings. The health giving ultra-violet rays do not, to any great extent, pass through ordinary window glass.

Ferguson Willing to Co-Operate

Toronto.—Premier Ferguson, stated that he would co-operate with the Alberta Trade Commission in the proposal laid before the Ontario Government by a delegation from Alberta that a national committee be organized to promote inter-provincial trade, with special emphasis on the use of Alberta coal in the eastern provinces.

Hon. R. Lemieux Honored

Rome.—Reception and luncheon in honor of Hon. Rodolphe Lemieux, speaker of the Canadian House of Commons and Minister of Justice, were given by the British ambassador to Italy, Right Hon. Sir Ronald Graham, was attended by several English and Canadian visitors in addition to a distinguished gathering of residents of the capital.

Plane Service for Mines

Winnipeg.—An aeroplane passenger and freight service to the central Manitoba mine area was inaugurated on June 1. It marks the first commercial air service to be started in the province. Western Airways confined its operations last year to the Red Lake district of Northern Ontario.

18th June, 1927, in lieu of
the above notice, to receive
taxes for the Municipal Dis-
trict of Inga.

Canadian National Sixth Annual Tour To the Pacific Coast

In pursuance of a time-honored
practice of affording its patrons
every facility and convenience tend-
ing toward more vacation enjoy-
ment, the Canadian National in
operating its sixth annual tour
firmly believe that this will again
prove of the greatest aid and con-
venience to a host of teachers, as
well as to professional men and
business men and women, vacation-
ists.

The tour will commence at Win-
nipeg, from which point a special
train of modern sleeping car equip-
ment, dining car and radio obser-
vation car, will leave July 4th. The
party will be personally conducted
by an efficient and experienced
representative of the Canadian
National.

After stopping at various points
of interest, the train will arrive at
Prince Rupert on July 9th. At this
latter point the party will embark on
a special steamship for a cruise of
50 miles thru the famous "Inside
Passage" to Vancouver. While the
tour terminates at Vancouver, those
who desire to make a trip to Victoria
may have their tickets read "Vic-
toria" as their destination without any
additional cost.

This mode of travel has many ad-
vantages. In the first place it is plan-
ned with a view to including in the
itinerary the most interesting points,
which, with the other arrangements
that are made, obviates the necessity
of the passenger worrying about con-
ditions, sleeping car accommodation,
meals and entertainment en route.
This is all done in advance by experts,
leaving the passenger free to enjoy to
the full the scenery and attractions
attendant to such tours.

The local agent of the Canadian
National Railways will be pleased to
give you full particulars of this tour.

Here and There

It is estimated that 2,000,000
acres will be sown to cereals this
year in the West, an increase of
2,500,000 acres over 1925.

Canadians hold the record for
eating eggs. The average Canadian
last year consumed 237—a record
according to Dr. J. H. Grisdale,
Deputy Minister of Agriculture.

Tobacco-growing is flourishing in
Western Ontario, and this year the
acreage will likely run to 45,000 or
double that devoted to the production
of this plant in 1925. The crop
last year was valued at \$4,000,000.

One of the most powerful radio
stations in Alberta will be erected
at Red Deer, Alberta, in the near
future. Stations will be operated in
Calgary and Edmonton by remote
control to the main station.

New Zealand will be officially
represented at the World's Poultry
Congress at Ottawa, July 27 to
August 4. R. W. Hawke, one of the
Island Dominion's best known poultry
breeders, will represent that
country.

Besides the game fish hatchery
which will be established by the Do-
minion Government in the Waterton
Lakes district in Southern Alberta,
a commercial fish hatchery will be
established in the north. The latter
will also handle certain species of
game fish suitable to lake waters.

The Canadian Pacific steamship
passenger traffic through the port
of Saint John during the winter
season of 1926-7 was over 40 per
cent. greater than that of the pre-
vious season, and it is expected that
the summer traffic through the St.
Lawrence port will show a still
greater increase.

The last addition to the chain of
Canadian Pacific hotels is the
"Hotel Saskatchewan," located at
Regina, opening on May 24. It is
one of the finest of the chain of a
character in keeping with the im-
portance of the capital city of the
Province which furnishes 50 per
cent. of the Dominion's wheat out-
put. The hotel is 12 stories, con-
taining 216 bedrooms with bath, and
many beautiful public rooms and
administrative offices.

The Canadian Pacific Railway
Company reports from Winnipeg
the marketing of grain at the pre-
sent rate of 150,000 bushels daily, as
compared with 123,376 for the cor-
responding season of last year.
Manitoba's 130,000 compares with
Saskatchewan's 135,000 and Alber-
ta's 206,327. Shipments are also
above last year's record with 220
cars daily.

The greater portion of the bells
forming the carillon to be installed
in the Victory Tower, at Ottawa,
were shipped from England on May
7 by the Canadian Pacific steamship
"Gulfport." The carillon, consisting
of 53 bells, is regarded as the finest
in the world, and have been cast
at the famous bell foundry at Cryp-
don. The bells are a portion of a
national memorial to thousands of
Canadians who laid down their
lives in the Great War.

The Province of New Brunswick
is rising in importance as a fur-
arming province. The report on
the fur farms of Canada just is-
sued by the Dominion Bureau of
Statistics shows New Brunswick at
the head of all the provinces in the
matter of the yearly gain in the
number of fur farms. These in-
creased by exactly 100 in the year
ending March, 1926, nearly dou-
bling the number of the year before
and standing in the later year at
206. Prince Edward Island still
leads the Dominion in the number
of farms, having 570 out of a Do-
minion total of 1,238, the latter
figure comparing with 2,150 the
year before. The provinces rank as
follows: Prince Edward Island, 570;
Ontario 495; Quebec, 456; New
Brunswick, 206; Nova Scotia, 157.
Alberta and British Columbia, each
120; Manitoba, 83; Saskatchewan,
62, and the Yukon Territories, 40.

What the Red Cross is doing for the Good of Canada

For the Veteran

Rehabs 3,500 soldiers still in hospital . . . relieves sickness and need in their families . . . cares for the soldier's family . . . provides sheltered employment for the disabled in three Veterans' Workshops.

For the Children

Through Junior Red Cross, has aided 3,000 crippled children and has pledged over 137,000 school children to practice health habits and to serve others.

For the Pioneer

Brings nursing service to those in frontier districts through 59 Outpost Hospitals and Nursing Stations.

For the New Canadian

Welcomes and gives needed attention to immigrant mothers and children at three Supt. Nurseries.

For the Mothers and Daughters

In Home Nursing Classes, has taught principles of nursing, diet and home hygiene to over 12,000 women and girls.

For the Disaster Victim

Is organized to afford prompt relief to sufferers from fire, flood and epidemic.

Stony Plain and District.

The sale is reported of Mr R. Breitkreutz' cottage on Second street, to Mrs A. Klukas.

Cattle-buyer Frank Slade, of Edmonton, paid Stony Plain district a visit this week.

Meredith Bros. have purchased another Chevrolet truck from Sommerfield and Mayer. These well-known trucks are replacing those of a lighter make, for hauling heavy loads.

Mr Wm Schincke, Tomahawk, was a business visitor in Stony on Monday.

The Stony Plain Motor Express line is now running two motor trucks on their daily service to the City.

R. C. services will be held in the Town Hall Sunday morning next at 11, by Rev Chas. Keenan.

While the wind storm last Friday afternoon was at its height, "Sutherland," one of Mr Barrie's cottages at Edmonton Beach, was discovered to be on fire. The cottage had been undergoing a thorough cleaning a short time before the fire was discovered, and the cleaners had moved on to another house. Mr Barrie was away from home at the time, having motored a sick neighbor in to Stony, to see a doctor. There was only one man at the Beach at the time, and, owing to such headway the fire had gained, it was found impossible to enter the house to save anything, and there was a complete loss of the furniture and other contents, as well as the building. This was the cottage the local girls club had engaged for the week of July 4th. Coming at the beginning of the season, the fire means a severe loss to Mr Barrie, as the cottage had been engaged ahead for the entire season. A small insurance was carried on the building with Weber Bros.

M. Mecklenburg, Alberta's popular eye specialist, has this week, been making an extended visit to Stony and District, attending to the needs of those with poor eyesight and needing proper lenses. He returns Thursday, June 30.

Watch for the date of the concert to be given in Stony by the Concordia College Choir.

Remember the W. I. Girls Club are holding a dance tomorrow evening, Friday, June 30 (the King's Birthday) in Wudel's Hall.

Walther League Meeting.

The St Matthew's Walther League held its regular monthly meeting Thursday, May 26, with Miss Emilia Miller presiding.

The following new members were introduced: Theresia Goetz, Emma Scholz, Carrie Lutz, Anna Hennig, P. Hennig, E. Goebel.

Val J. Kulak made a few remarks on the Greater Service Program.

Miss Mary Enders, the Mission Secretary, took up the matter of Mission exhibits. She is gathering pictures and newspaper clippings for the Synodical Conference to be held the coming summer.

A new Entertainment Committee composed of Miss Carrie Lutz (chairman), Miss Lydia Eberhardt and Hy Zauson, was appointed.

The Booth Committee for the School Picnic on Saturday July 2, is: Mary Enders (chairman), Miss Anna Eberhardt, Val J. Kulak.

A motion to adjourn carried, and the meeting closed with prayer.

The officers are—

Pres., Miss Emilia Miller.
V-Pres., John K. Ulmer.
Sec., Miss Theresia Schapp.
Treas., Valentine J. Kulak.
W. I. Sec., Miss Louise Enders.

Card of Thanks.

Mr and Mrs James Warner wish to thank the members of Holborn U. F. W. A. for the many kindly acts done and for the flowers sent their daughter Mary during her sickness.

Card of Thanks.

The officers and members of Holborn U. F. Local wish to thank all those who gave their picnic on the holiday such splendid support. They also wish to thank the business men for their generous donations.

Wheat Pool News Notes.

The oldest member of Alberta Wheat Pool is W. L. Wilkins of Landline, who is 81, and is engaged in seeking his farm.

The first man to sign a second series Wheat Pool contract, recently issued, was J. E. Gustus, who farms in Calgary district. Mr Gustus also signed the first contract ever issued by the Alberta Pool.

W. J. Jackson, Wheat Pool director for Edmonton district, will address a series of meetings along the Canadian National Ry. in British Columbia. Many wheat farmers there are anxious to join the Pool.

In reply to a complaint from the Scottish Baking Society that the Canadian Wheat Pools are unduly holding up the price of wheat in the face of a world's surplus, Pool officials contend that the cost to the grower to produce wheat should have some consideration.

Spruce Grove News

On Tuesday Rev. Father Beys, O.M.I., Oblate Provincial, and Rev. P. Beaudry, O.M.I., Wabamun, visited Father Koeenan.

Miss Redig, domestic science teacher from the Vermilion School of Agriculture, gave a demonstration at Spruce Grove under the auspices of the Junior Red Cross Society. The meeting was held in the United Church, and the Junior Girls are to be complimented on the spirit in which they took hold of the matter. Miss Redig gave two demonstrations, one on "Salads and Salad Dressings" and a second one on "Setting and Serving a Meal." It is quite probable that Miss Redig will return again in June for other demonstrations. A large number of different salads were made, and those present had the pleasure of tasting them.

Mr W. H. Mair, the popular manager at the local United Grain Growers elevator, who has been away on an extended vacation owing to sickness, returned to his duties yesterday and was welcomed by his friends. Mr Rudolf Heichen, who had been filling Mr Mair's position during his absence, has gone to his home near Stony Plain, on a vacation.

On Sunday, June 5th, at 9 o'clock, the Forty Hours' Adoration of the Blessed Sacrament will open at St. Joseph's Church, Spruce Grove. Evening service will be held at 7.30 and on Monday and Tuesday mornings Holy Mass will be offered at 6.30 and 8. These exercises will be conducted by Rev. Father Zephyr, O.F.M., noted Franciscan missionary, of North Edmonton. Sermons will be preached in English and French. An invitation is extended to the general public to attend.

Posters were hung around the business places at the Grove on Saturday, announcing the big doings in Stony July First.
